

# Welcome to Finland 6.-12.10.2024

Satakunta University of Applied Sciences will organize an ERASMUS+ BIP course with our partners from Germany (Hochschule Ludwigshafen), Greece (Agricultural University of Athens) and the USA (College of Charleston) on the topic of Supply Chain Management.

The course will award you with 3 ECTS and covers the topic of **Sustainable SCM solutions in the coffee production industry**. The course will have a kick-off week in Rauma, Finland including excursions to the attached case company and other interesting visits as well as on-line collaboration sessions during the autumn. For the final on-line course conference, the students will prepare presentations on their SCM solution.
