

CURRICULUM VITAE

Io Kefalogianni was born in 1963 in Athens. She graduated from the Agricultural University of Athens (Department of Crop Science) with an excellent grade (9). She conducted her doctoral Thesis at the Laboratory of General and Agricultural Microbiology, Department of Agricultural Biotechnology, Agricultural University of Athens. Since 2014, she has held a position as Laboratory Teaching Staff in the Laboratory of General and Agricultural Microbiology. Her primary research interests include the study of soil microorganisms, biological nitrogen fixation, plant-microbe interactions with an emphasis on plant growth-promoting and phytopathogen-antagonistic microorganisms, microbial biostimulants, microbial fermentations, waste management, and the biotransformation of agro-industrial by-products (composting), as well as microalgae cultivation and metabolite production.
